

Know Our Team

Introduction

The Dark Order is a Self-Funded Developer Team, which created basically for The Development of Web-Applications and Android Applications.

Establishment

The Dark Order has been created by Sayan Kumar Bhowmick, Arnab Mukherjee and Dhiraj Thakur in January, 2022. It was created for the Event "Hack With Agora" organized by The Company Agora.io for the 1st and 2nd Year B.tech Students. Aroga.io is a Company that basically host SDKs for Video-Calling, Voice-Calling, Live Video-streaming, Messaging, Two-Way Communications etc. (referring to the Important Links section to know more about Agora.io)

Purpose

The Purpose of The Dark Order is to provide Advanced Facilities in an innovative way, in the form of Web-based and Android Applications. We are Working on Various Issues related to Online-Education, Medical Emergencies, and Entertainment of Those Persons who spends almost 24 hours in a very busy schedule. We are Planning to Provide our Services all over India and Abroad also. In this days, Knowledge of the Digital World is Mandatory for all and we are designing our tools in a simple down-to-earth manner, so that it can be easily used by Children's and Senior Citizens Who are not so familiar with Technologies.

Upcoming Projects

This Web-Application, "Teacher Assistant Online" is The First Project of The Dark Order and We are Planning 100+ Projects that will be published by the end of 2025. All The Projects will be based on Education, Medical Issues, and Entertainment Purposes. Temporarily we are taking the business purposes at a corner-side but we will soon start working on those types of projects also.
